- Available in 30ml adjustable doses.
- Pour-on nozzle can be added.

Product Codes: HSW Ecomatic Drench 30ml

HSW Eco-Matic Pour on Gun

- Automatic, multi-dose pour-on gun.
- High-grade plastic construction.
- Accurate dosage adjustment.
- Available in 70ml adjustable doses.
- Metal drench nozzle can be added.

Product Codes: HSW Ecomatic Pour on

HSW Ferro-Matic

- High-quality vaccinator with long service life
- Metal construction with glass barrel.
- Lure-lock needle connection. Easy to change needles.
- Accurate dosage adjustment.
- Available in 3ml adjustable doses.
- Maintenance kits available.

Product Codes: HSW Ferromatic

HSW Vet-Matic Vaccinator

- High-quality vaccinator with long service life.
- Metal construction with glass inner barrel.
- Sturdy piston rod.
- Accurate, easy dose adjustment.
- Available in 5mL and 10mL variations. Spare parts kits available

Product Codes: HSW Vet Matic 5mL, HSW Vet Matic 10mL.

HSW Multi-Matic Injector

- Pressure-cast aluminium construction. Strong and light weight.
- Dial-a-dose selector with 0.5ml (25ml) &1mL(50ml) increments.
- Break-proof plastic barrel. Practically indestructible.
- Available in 25ml & 50mL model. Spare O-rings & barrels available.

Product Codes: HSW Multi-Matic 25ml & HSW Multi Matic 50mL

HSW Eco-Matic Vaccinator

- Automatic, multi-dose vaccinator.
- High-grade plastic construction.
- Lure-lock needle connection. Easy to change needles.
- Accurate dosage adjustment.
- Available in 1ml, 2mL and 5mL variations.
- Piston O-rings available.

Product Codes: HSW Ecomatic (size) Tube

HSW Eco-Matic Bottle Mount Vaccinator

- Automatic, multi-dose bottle mount vaccinator.
- High-grade plastic construction.
- Lure-lock needle connection. Easy to change needles.
- Accurate dosage adjustment.
- Available in 0.3ml, 0.5ml,1ml, 2mL and 5mL variations.
- Piston O-rings available.

Product Codes: HSW Ecomatic (size) Bottle Mount

HSW Eco-Matic Unimatic

- High-quality plastic construction.
- Lure lock needle connection.
- Accurate, easy dose adjustment.
- Includes 20mm, 30mm & 33mm Bottle caps.
- Available in 2ml adjustable doses

Product Codes: HSW Ecomatic unimatic

HSW Eco-Matic Twin vaccinator

- High-quality plastic construction.
- Any combination of barrel sizes
- Adjustable needle distance.
- Full kit, with all available adaptors included.

Product Codes: HSW Eco-matic twin 0.5ml,/0.5ml, HSW Eco-matic twin 1ml/1ml, HSW Eco-matic twin 2ml,/2ml, HSW Eco-matic twin 1ml/2ml, HSW Eco-matic twin 0.5/2ml

HSW Eco-Matic 12.5ml Injector

- High-quality plastic construction
- Lure-lock needle connection.
- Accurate, easy dose adjustment.
- Metal Drench nozzle can be added
- Available 12.5ml adjustable dose.

Product Codes: HSW Ecomatic injector

HSW Multi-Matic Injector with Sterimatic Barrel

- Pressure-cast aluminium construction. Strong and lightweight.
- Dial-a-dose selector with 0.5ml (25ml)& 1mL (50ml) increments.
- Available in 25ml & 50mL model. Spare Barrels & O-rings available.

Product Codes: HSW Multi Matic Sterimatic

HSW Drench / Injector

- High-quality drench/ injector with long service life.
- Pressure cast aluminium construction
- Includes needle lure lock & drench nozzle.
- Accurate dosage adjustment.
- Available in 10ml adjustable doses
- Service kits available

Product Codes: HSW Drench Injector 10ml

HSW Drench Gun

- High-quality drench/ injector with long service life.
- Pressure cast aluminium construction
- Accurate dosage adjustment.
- Available in 23ml adjustable doses
- Minor & major parts kits available.

Product Codes: HSW Drench 23ml

HSW Baycox 2ml Drench Gun

- Use with Baycox 1 litre
- Adjustable 2ml

Product Codes: HSW Drench 2ml Baycox

HSW Fan Nozzle

- To suit the HSW Eco-Matic 12.5ml injector.
- To also suit the 30ml

Product Codes: HSW Fan nozzle

Masterline F-grip Vaccinator (Tube feed)

- Critical components made from sturdy stainless steel and as such can be boiled for cleaning.
- Valves can easily be accessed for cleaning or replacement.
- Standard lure needle connection.
- Maintenance kit included.
- Available in 0.5ml, 1ml & 2ml adjustable doses

Product Code: TU-Vac-Master 0.5ml, TU-Vac-Master 1.0ml, TU-Vac-Master 2.0mL

Masterline F-grip Vaccinator (Bottle mount)

- Critical components made from sturdy stainless steel and as such can be boiled for cleaning.
- Valves can easily be accessed for cleaning or replacement.
- Standard lure needle connection.
- Supplied with 20ml fast fit & 20mm Bottle collar.
- Maintenance kit included. Available in 0.5ml & 2ml

Product Code: TU-BM-Madster-QF0.5 TU-BM-Master-QF2

Masterline F-grip Vaccinator (Transformer)

- Critical components made from sturdy stainless steel and as such can be boiled for cleaning. 2ml adjustable dose.
- Valves can easily be accessed for cleaning or replacement.
- Standard lure needle connection.
- Supplied with everything needed for use as a tube feed and a bottle mount.
- Maintenance kit included.

Product Code: TU-Transformer 2mL

Masterline Drencher for Baycox

- Critical components made from sturdy stainless steel and as such can be boiled for cleaning.
- Valves can easily be accessed for cleaning or replacement.
- Purpose built for Baycox 200mL Screw-top bottles.
- Stainless steel drench nozzle. 2ml adjustable dose.
- Maintenance kit included

Product Code: TU-Baycox Drench

Think Livestock Safety Vaccinator

- Sturdy stainless steel construction. 2ml adjustable
- Sterimatic retractable sleeve protects against self-injection and prevents accidental needle damage.
- Stericaps fit into the end of the sleeve; disinfecting the needle between shots. Each Stericaps is tested to one hundred shots of efficacy with large livestock.
- Maintenance kit included (valves, springs, O-rings and lubricant).

Product Code: TU-Safety Vaccinator

Masterline V-grip Vaccinator (Tube feed)

- Barrel made from sturdy stainless steel to prevent breakage.
- Durable plastic handle with soft finger grips.
- Standard lure needle connection.
- Three stage spring tension adjuster in base of handle .
- Maintenance kit included. Available in 6ml & 10ml adjustable.
- Spare parts available

Product Codes: TU-Vac-V-Master6 (6mL), TU-Vac-V-Master10 (10mL)

Masterline V-grip Vaccinator (Bottle mount)

- Barrel made from sturdy stainless steel to prevent breakage.
- Durable plastic handle with soft finger grips.
- Standard lure needle connection.
- Three stage spring tension adjuster in base of handle.
- Supplied Quick fit 20ml & 20mm bottle collar
- Maintenance kit included. Available in 6ml & 10ml adjustable
- Spare parts available

Product Codes: TU-BM-V-Master6 (6mL), TU-BM-V-Master10 (10mL).

Masterline V-grip Vaccinator (Back bottle mount)

- Barrel made from sturdy stainless steel to prevent breakage.
- Durable plastic handle with soft finger grips.
- Standard lure needle connection.
- Can be used as a tube feed and a bottle mount.
- Includes Quick-fit, bottle collar, back-bottle mount.
- Maintenance kit included.
- Spare parts available. Available in 6ml & 10ml adjustable

Product Codes: TU-BBM-V-Master6 (6mL), TU-BBM-V-Master10 (10mL)

Masterline High Volume Injector

- Durable plastic handle with soft finger grips.
- Easy access to both valves for cleaning and replacement.
- Standard lure needle connection.
- Three stage spring tension adjuster in base of handle.
- Maintenance kit included. Available in 12.5ml,15ml & 20ml adjustable doses.
- Spare parts, barrels and nozzle nuts available.

Product Code: TU-Injector 15mL

Masterline Drench gun

- Durable plastic handle with soft finger grips.
- Easy access to both valves for cleaning and replacement.
- Stainless steel drenching nozzle can be locked into any desired position. Available in 12.5ml,15ml,20ml & 30ml adjustable doses
- Three stage spring tension adjuster in base of handle.
- Maintenance kit included.
- Spare parts, barrels and nozzle nuts available.

Product Code: TU-Drench 20ml

Masterline Pour-on Gun

- Showerhead nozzle avoids splashing and promotes better application of product. Available in 75ml adjustable dose
- Three easy access valves (nozzle, front and back).
- Three stage spring tension adjuster in base of handle.
- Stainless steel drench nozzle also available.
- Maintenance kit included. Spare parts, barrels and nozzle nuts available.

Product Code: TU-Pour-On-V-Master 75mL

Pole syringes

- Safe, simple and easy to use
- 36″ Inches long
- Available in 3cc and 12cc

Product Code: Safe T-flex

Prima-tech Pour-on Gun with T-bar

- T-bar pour-on nozzle - allows correct application of sheep pour-on.
- Dial-a-dose - 30mL. Easy dose selection in 1mL increments.
- Ergonomic Handle - more comfortable and less strenuous to use. Metal Drench nozzle can be added.

Product Code: Prima Tech Pour on with T Bar

Prima-tech Pour-on Gun with Floating Hook

- High-quality Prima-tech pour-on gun with floating hook.
- Adjustable Dial-a Dose 70ml.
- Floating hook keeps gun and nozzle separate- ideal for drenching cattle in space restricted environments.
- Drench from behind the cattle

Product Code: P-Floating Hook 70ml

- Tailored to pigeon breeders with small numbers of birds.
- Contains: 1 x Prima-tech 0.5mL Bottle Mount Vaccinator, 1 x pack of 20 gauge 1/2 inch needles, 1 x 50mL Sterile Bottle, 1 x 30mL Decanting Syringe and 1 x 16 gauge 1 inch needle (for decanting).

Product Code: Pigeon Vaccination Kit

Flexitube

- Flexible extension allows the user to vaccinate in space restricted areas such as cattle crushes.
- Fits onto any vaccinator with a needle lure lock.
- Reduces needle breakages.

Product Code: Flexitube

Flexitube Premium

- Flexible extension allows the user to vaccinate in space restricted areas such as cattle crushes.
- Fits onto any vaccinator with a needle lure lock.
- Reduces needle breakages.
- Features a robust handle for more comfortable use

Product Code: Flexitube Premium

HSW Flexible extension Bar

- Flexible extension 29cm long

Product Codes: HSW Flexible extension 29cm

Band Castrator Economy

- Easy to use
- Single man operated
- available in economy , plastic model
- Castrator bands also, available in packs of 100

Product Codes: Castrator Band Economy,

Castrator Bands

Available in packs of 100 bands

Product Code: Castrator Bands

HSW Vac-Pac Bottle Holders

- Insulated to keep vaccine at a constant temperature.
- Available in On– Arm (250ml & 500ml) or Hip (100ml, 250ml & 500ml)
- Fits most sizes of collapsible vaccine pack.

Ezepak Vaccine Holder

- Insulated to keep vaccine at a constant temperature.
- Fits onto bicep.
- Fits most sizes of collapsible vaccine pack.

Product Code: Eze-pak Vacciholster Cool-pack

Ezepak Gun Holster

- Stores gun between applications, keeping needle safely away from operator.
- Fits several types of gun including Masterline V-grip Vaccinators and Masterline Drench Guns.

Product Code: Ezepak Belt/Gun Holster

Ezepak Drench System

- Distributes weight of drench container more evenly.
- Includes drench gun holster.
- Suits 2.5L and 5L drench containers with top or bottom draw-off cap.

Product Code: Ezepak Drench System

Sterimatic Gun Holster

- Made from high-quality reinforced nylon.
- Large compartment fits a wide range of animal health applicators.
- Adjustable belt included.

Product Code: POS001

Back-packs (Drench Containers)

- Hard plastic construction.
- Vented cap prevents vacuum from forming.
- Available in three sizes: 1L, 2.5L and 5L.

Product Codes: P-Back Pack 1 Litre, P-Back Pack 2.5 Litre, P-Back Pack 5 Litre.

Draw-off cap with dip tube

- Can be used to convert backpack from bottom feed to top feed.
- Prevents accidental leakage associated with bottom feed.

Product Code: P-Diptube

Think Livestock Scourable Markers

- Greasy - wool scourable.
- Small enough to fit in a pocket.
- Lid allows marker to be sealed.
- Available in five colours: Red, green, blue, orange and purple.

Product Codes:: Think Livestock Marker (Colour)

Sterimatic Adapter for Masterline Vaccinator

- Allows use of the Sterimatic retractable sleeve with Masterline vaccinators.
- Provides a secure connection between needle and vaccinator.

Product Code: TU-Sterimatic Adapter

Sterimatic Universal Adaptor

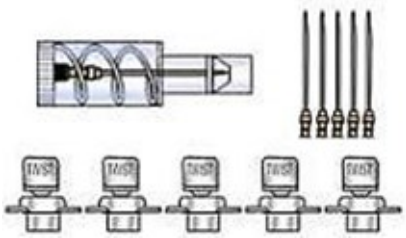
- Fits on to any vaccinator with a needle lure lock
- To use the Sterimatic system with any vaccinator with a needle lure lock connection.

Product Code: Sterimatic Universal Adaptor

Sterimatic starter kit with Clear Sleeve

- Kit includes: clear retractable sleeve, five needles and five Stericaps.
- 12mm/half inch injection depth.
- Each Stericap is tested to one hundred shots of efficacy with large livestock.

Product Code: RPA035



Sterimatic Clear Sleeve

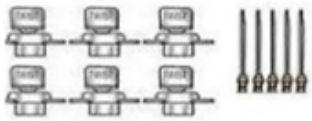
- Sleeve only as included in the Sterimatic starter kit.
- 12mm/half inch injection depth.

Product Code: SLA001SB

Sterimatic 500 dose refill kit for clear sleeve

- Kit includes five needles and five Stericaps.
- 12mm/half inch injection depth.
- Each Stericap is tested to one hundred shots of efficacy with large livestock.

Product Code: RPA001



Sterimatic 1000 dose refill kit for clear sleeve

- Kit includes ten needles and ten Stericaps.
- 12mm/half inch injection depth.
- Each Stericap is tested to one hundred shots of efficacy with large livestock.

Product Code: RPA012

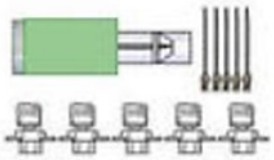
1/4 inch depth collar for use with Sterimatic Sleeve.

- Fits over Sterimatic clear sleeve to allow 1/4 inch injection depth.
- Yellow collar only.

Product Code: Collar Yellow.

Sterimatic starter kit with green sleeve

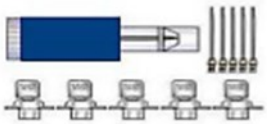
- Kit includes green retractable sleeve, five needles and five Stericaps.
- 24mm/1 inch injection depth.
- Each Stericaps is tested to one hundred shots of efficacy with large livestock.



Product Code: RPA036

Sterimatic starter kit with blue sleeve

- Kit includes blue retractable sleeve, five needles and five Stericaps.
- 37mm/1.5 inch injection depth.
- Each Stericaps is tested to one hundred shots of efficacy with large livestock.



Product Code: RPA037

Stericaps refill kit (caps only)

- Five Stericaps.
- Each Stericap is tested to one hundred shots of efficacy with large livestock.

Product Code: RPA040

Sterimatic bottle protector

- Kit includes 20mm or 30mm bottle protection system and one Stericap.
- Fits onto vet medicine bottles with 20mm caps or 30mm caps

Product Code: BAA101(20mm) BAA202 (30mm)

Lincoln Max-Min Thermometer

Lincoln Maximum and Minimum Mercury Thermometer, Negative 40°C to +50°C Celsius Range

Product Code: Min./Max Ther

Ear Notchers

- Available in Small V type, U type, Square type,
- Available in Large V type & Large Punch type

Product Code: Ear Notchers (type)

Stericut Tail Docker

- Portable,
- Gas Heated
- Cauterises wound as it cuts to prevent infection
- Gas cylinders, knives and handle-springs available

Product Codes: Stericut Tail Docker

Disposable Syringes

- Lure slip syringes available in 1mL, 3mL, 5mL, 10mL, 20mL, 30mL and 50mL volumes.
- Lure lock syringes available in 10mL volume.
- Catheter tip syringes available in 60mL volume. Box of 25
- Boxes of 100 or sold separately.

Product Codes: DSL001MLS (1mL), DSL003MLS (3mL), DSL005MLS (5mL), DSL010MLS (10mL), DSL020MLS (20mL), DSL030MLS (30mL), DSL050MLS (50mL), DSL060MLC (60mL Catheter Tip), Syringe Lure Lock (10mL Lure Lock).

Masterline Reusable Syringes

- Volume markings engraved on both barrel and piston.
- Locking nut on piston can be used to ensure correct dosing.
- Lure lock needle connection.
- Available in four sizes: 10mL, 20mL, 30mL and 50mL.
- Maintenance kit included. Drench Nozzle can be attached.

Product Code: TU-Flex-Master 10mL, TU-Flex-Master 20mL, TU-Flex-Master 30mL, TU-Flex-Master 50mL.

Drench nozzle for Masterline reusable syringes

- Stainless steel drench nozzle.
- Fits onto all sizes of Masterline reusable syringes.

Product Code: TU-Drench-Nozzle Flex

Stainless steel reusable needles

- Packs of twelve needles.

Sterile Bottles

- For decanting injectable products.
- Available in two sizes: 50mL and 100mL

Product Codes: Bottles Sterile 50 (50mL), Bottles Sterile 100 (100mL)

Rattle Paddles

Fiberglass shaft with golf-style handle for a comfortable grip
·Vinyl covering for protection and easy cleaning
·Lightweight and durable head containing BBs for noise
·4length with head: 36″
·colours orange,

Product Code: Rattle Paddles

F10 Super Concentrate Disinfectant

- Highly effective against a broad range of pathogens.
- Available in four sizes: 200mL, 1L, 5L and 25L.

Product Codes: F10 SC 200 - 200mL, F10 SC 1L - 1L, F10 SC 5L - 5mL, F10 SC 25L - 25L.

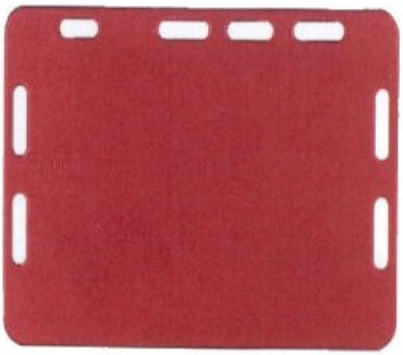
Zinc Sulphate Tester

- Used to test zinc sulphate levels in footbaths.

Product Code: Hydrometer - ZINC020

Sorting Panels

- Handles on three sides.
- Strong plastic.
- Available in two sizes: Medium (30″ x 36″) and Large (48″ x 36″).



Product Code: SORP - Medium (Medium), SORP - 40 (Large),

Gator Water Medicator

- Water powered - No need for electricity, runs off water pressure.
- Set ratio of 1:100 or 1:50 - Easy to calculate pre-dilution ratios.
- Chemical bypass - chemicals added after the unit to minimize unnecessary wear and tear.
- All replacement parts available from Think Livestock.
- Professional repairs available

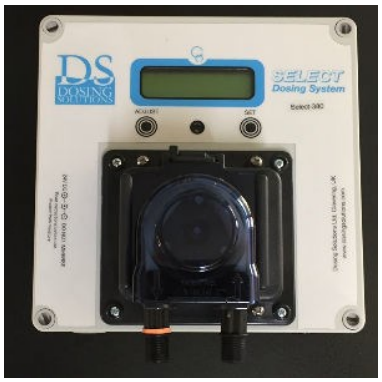
Product Codes: On request

Select Doser

- Highly accurate - 95%, superior to other variable ratio pumps which often wear out quickly.
- Long lasting with minimal maintenance. Replacing the pump tube effectively renews the pump.
- Several variants available - ask our staff to learn more.
- Replacement parts available from Think Livestock
- Professional repairs available

Product Codes: On request

Select 380 Doser



- Can pump up to 5 litres per hour of additive into the water line.
- Can dose into pressures of up to 70 psi (or 5 bar), which are common with long water lines typical to sheep and cattle farms.
- Works with standard water meters.
- Highly accurate - 95%, superior to other variable ratio pumps, which often wear out quickly.

Product Code: 380 Doser

G5 Doser

- Can pump up to 5 litres per hour of additive into the water line.
- Can dose into pressures of up to 100 psi (or 7 bar).
- Highly accurate - 95%, superior to other variable ratio pumps, which often wear out quickly.

Product Code: 360CA-1

Spinstir

- For keeping insoluble additives suspended in stock solutions.
- Works well with any powdered additives.
- Multiple sizes available.

Product Codes: 250CA50 (Spinstir 612—for up to 20L), 211CA00 (Spinstir 10 - 240 for up to 100L)
