MASTERLINE BM-MASTER QUICK FIT VACCINATOR F-GRIP

The MasterLine Quick Fit Vaccinator is a tough and reliable vaccinator designed for use with bottles of up to 100ml. The Quick Fit Vaccinator can also be fitted with a choice of 3 different conventional attachments for larger bottles and varying bottle cap sizes. The MasterLine Quick Fit Vaccinators feature easy access to valves for easy cleaning and maintenance.

Features

- Available in 0.5ml and 2ml maximum doses
- Ergonomically designed, durable plastic handle
- Standard Luer-lock needle connection
- Critical parts such as bottle and needle connection are made of metal to avoid breakage
- The complete gun can be sterilized (by boiling or autoclave)
- Durable synthetic material compatible with medicines
- Modern valve systems give very short refill time with high viscosity products
- Can be fitted with conventional bottle attachments to suit either 20mm, 30mm or 33mm bottle caps. (Flat Packs).

MASTERLINE VACCINATOR F- GRIP

The MasterLine Vaccinator is a strong and reliable vaccinator. Tubing can be guided through the top or bottom handle to suit each application, or personal choice. The MasterLine vaccinators can be easily pulled apart for cleaning and maintenance.

Features

- Available in 2ml maximum dose
- Standard Luer-lock needle connection
- Ergonomically designed, durable plastic handle
- Critical parts such as needle connection are made of metal to avoid breakage
- Tubing can be guided through top or bottom of handle adding flexibility to suit your needs
- The complete gun can be sterilized (by boiling or autoclave)
- Durable synthetic material compatible with medicines
- Modern valve systems give very short refill time with high viscosity products

Product Code:
TU-Vac-Master 2ml - 2ml Vaccinator

MASTERLINE F-GRIP TRANSFORMER VACCINATORS:

The Masterline Transformer can be used as a bottle mounted vaccinator or tube.

Features

- All above features
- Available in 2ml maximum dose
- Maintenance kit. Product Code: TU-Transformer 2ml

THINK LIVESTOCK SAFETY VACCINATOR

- Available in 2ml dose.
- Includes 2ml transformer vaccinator, Sterimatic 500 dose kit with clear sleeve & Sterimatic adaptor.
- Stainless steel components.
- Ideal for Ovine Johnes Vaccine
- Can used as either conventional tube-feed or bottle mount vaccinator.
- Retractable sleeve protects the operator from self-vaccination and also prevents accidental damage to the needle
- Luer needle lock provides the best connection between the vaccinator and needle.
- Disinfects the needle between shots.

Product Code: TU-Safety Vaccinator

THE MASTERLINE VACCINATORS ARE ALSO AVAILABLE IN A V-GRIP ALTERNATIVE

MASTERLINE V-GRIP BOTTLE MOUNT VACCINATOR

The Bottle Mount Vaccinator is a strong and versatile applicator for use in any situation. Supplied with a quick fit attachment and conventional attachment for different application requirements. (**Flat Packs**). The applicator offers a Select-a-dose dial with large window for quick and easy selection of the required dose.

Features

- Available in 2ml, 6ml and 10ml maximum dose
- Ezi-flow squeeze adjuster™ – the only easy working spring adjuster in the World!
- Standard Luer-lock needle connection
- Ergonomically designed, durable plastic handle with soft finger grips for more comfort
- Critical parts such as needle connection are made of metal to avoid breakage

Product Code:

TU-BM-V-Master 2ml - 2ml Bottle Mount Vaccinator (V-grip)

TU-BM-V-Master 6ml - 6ml Bottle Mount Vaccinator (V-grip)

TU-BM-V-Master 10ml - 10ml Bottle Mount Vaccinator (V-grip)

MASTERLINE V-GRIP VACCINATOR

The MasterLine V-grip is a durable, ergonomic and long lasting vaccinator. The applicator features a Select-a-dose dial with large window for quick and easy selection of the required dose.

Features

- Available in 2ml, 6ml and 10ml maximum dose
- Ezi-flow squeeze adjuster™ – the only easy working spring adjuster in the World!
- Standard Luer-lock needle connection
- Ergonomically designed, durable plastic handle with soft finger grips for more comfort
- Critical parts such as needle connection are made of metal to avoid breakage

Product Code:

TU-Vac-V-Master 2ml - 2ml Vaccinator (V-grip)

TU-Vac-V-Master 6ml - 6ml Vaccinator (V-grip)

TU-Vac-V-Master 10ml - 10ml Vaccinator (V-grip)

MASTERLINE V-GRIP BACK BOTTLE MOUNTED VACCINATORS:

- Can be transformed from a bottle mount vaccinator to a tube feed applicator and back to a bottle mount vaccinator
 - Available in 2ml, 6nl & 10ml
 - Maintenance kit
- Product Code: TU-BBM-V-Master (size) ml

MASTERLINE BACK BOTTLE MOUNT ADAPTOR

Transforms TU-Vac-V-Master tube feed vaccinator to Back Bottle Mount.

Features: Available in 2ml.6ml & 10ml
Compatible with all Bottle Mounts
Product Code: TU-Back-Bottle Mount

MASTERLINE POUR-ON GUN

Available in 75ml select-a-dose

Features

- **Showerhead nozzle:** with back flow valve, avoids dripping and splashing of product.
- **Interchangeable:**
Pour-on gun to Drench gun.
75ml Pour-on is easy to transform to Drench gun.

Product Code: TU-Pour-On-V-Master 75ml

MASTERLINE DRENCH GUN

Available in 15ml & 20ml
select-a-dose

Features

- Drench nozzle is made of high degree metal to avoid breakage.
- Drench nozzle can be positioned in any direction.
- All valves are easy to get to for cleaning.

Product Code:
TU-Drench 20ml
TU-Drench 15ml

MASTERLINE INJECTOR

Available in 15ml select dose

Features: Complete maintenance kit, all valves easy to get to & clean.
Drench nozzle can be fitted

Product Code: TU-Injector 15ml

Masterline 2ml Baycox Piglet Gun

STANDARD BOTTLE MOUNT COLLAR FOR QUICK FIT VACCINATOR

Standard bottle mount collar for use with TU-BM-Master and TU-BM-V-Master. These attachments are commonly used with vaccine packs up to 250ml in size. Available to suit 20mm, 30mm, and 33mm bottle-caps.

Product Code:
TU 51-301024—Bottle Mount Collar 20mm
TU 51-301027—Bottle Mount Collar 28-30mm
TU 51-301028—Bottle Mount Collar 32-33mm

QUICK FIT BOTTLE ATTACHMENT

Included with TU-BM-Master and TU-BM-V-Master vaccinators, for use with 10-100ml bottles with a 20mm cap,

Product Code:
TU-Quick Fit – Quick Fit Bottle Mount

MASTERLINE STERIMATIC ADAPTER

This adapter is required to fit the Sterimatic Multi-dose sleeve onto the MasterLine range of vaccinators. Provides a solid needle connection with Luer-lock system.

Product Code:
TU-Sterimatic – Sterimatic Adapter

MAINTENANCE KIT FOR MASTERLINE VACCINATORS

Maintenance set for MasterLine vaccinators includes silicon oil, spare valves, o-rings, springs and nylon rings

Product Code:
Maintenance Kit size needed.

OVERHAUL KIT FOR MASTERLINE VACCINATORS

Overhaul Kit for TU-BM-Master I includes maintenance kit, handle spring, barrel & spike.

OVERHAUL KITS AVAILABLE FOR ALL VACCINATORS AND SIZES

Product Code:
TU-Overhaul Kit – Overhaul Kit size needed

MASTERLINE DRENCH NOZZLE FOR MASTERLINE VACCINATORS

Metal drench nozzle to suit all MasterLine vaccinators, product includes adapter to fit onto applicator. Drench nozzle measures 9cm in length.

Product Code: TU-Drench Nozzle Vaccinator

MASTERLINE REUSABLE SYRINGES

Features

- Available in sizes 10ml, 20ml, 30ml, 50ml
- Engraved volume indication on dosage piston and barrel
- The dosage piston has a dosage nut for correct dosing
- Syringes supplied with Luer-lock needle connection
- Can be sterilized

Product Code:
TU-Flex-Master 10ml— Reusable Syringe 10ml
TU-Flex-Master 20ml— Reusable Syringe 20ml
TU-Flex-Master 30ml— Reusable Syringe 30ml
TU-Flex-Master 50ml— Reusable Syringe 50ml

MASTERLINE DRENCH NOZZLE FOR TU-FLEX-MASTER

Metal drench nozzle to suit MasterLine Flex Master Syringes. Drench nozzle measures 10cm in length.

Product Code:
TU-Drench Nozzle Flex

PRIMA BMV BOTTLE MOUNTED VACCINATOR

The Prima BMV is a reliable front-loading vaccinator designed for use with bottles of up to 100ml. The BMV features the Fast-Fit Bottle Mount—which allows for fast, easy bottle changing while offering protection to the bottle via a hard plastic shield. The BMV also has a Standard Bottle Mount system for oversize bottles. (Flat Packs).

Features:

Available in 0.5ml, 2ml & 6ml Maximum doses

Steel Needle Nib—adds strength to a critical stress point

Universal Needle Cap—fits all luer spec needles, needle changing is fast and simple.

Fast Fit Bottle Mount System—fast and simple bottle changing, protects bottles in use.

Hook—easy to hang up and keeps treatment areas tidy

Ergonomic handle—more comfortable during use

Large Finger Grips on Dose Adjuster—easier to change doses

Clear Barrels—easier to see product being administered

Product Code:

PBMVFF2—2ml Bottle Mount Vaccinator

PBMVFF6—6ml Bottle Mount Vaccinator

PRIMA VACCINATOR

The Prima Vaccinator is a rugged, durable applicator, designed to be reliable and easy to use. Critical parts are stronger, making the Prima Vaccinator more durable and more cost effective.

Features:

Available in 1ml (Fixed Dose), 2ml & 6ml Maximum doses

Steel Needle Nib—adds strength to a critical stress point

Inlet Inside Rear Handle—prevents accidental disconnection of vaccine tube

Universal Needle Cap—fits all luer spec needles, needle changing is fast and simple.

Hook—easy to hang up and keeps treatment areas tidy

Ergonomic handle—more comfortable during use

Large Finger Grips on Dose Adjuster—easier to change doses

Clear Barrels—easier to see product being administered

Product Code: PVAC1-1ml

PVAC2- 2ml & PVAC6-6ml

PRIMA INJECTOR

The Prima Injector is designed to make larger dose injections easier and more accurate. The Prima Injector will be used in working with cattle and pigs with endectocide and other injectables including antibiotics. **Drench Attachment Available**

Available in 12.5 ml Maximum dose

Steel Needle Nib—adds strength to a critical stress point

Universal Needle Cap—fits all luer spec needles, needle changing is fast and simple.

Hook—easy to hang up and keeps treatment areas tidy

Ergonomic handle—more comfortable during use

Large Finger Grips on Dose Adjuster—easier to change doses

Clear Barrels—easier to see product being administered

Dose Selector—0.5 ml increments

Product Code:
PINJ12—12.5 ml Injector

PRIMA INJECTOR WITH DRENCH ATTACHMENT

The Prima Injector can be fitted with a Drench attachment

PRIMA POUR ON GUN

The Prima Pour On Gun is a durable applicator designed for use with Pour on medications. The Shower nozzle avoids wastage from splashing and is angled allowing the operator easier access to the animal. The 50 ml and 70 ml barrels can be interchanged using the Dual Barrel System to allow greater flexibility across a wider range of doses

Features:

Available in 70 ml Maximum dose.

Dual Barrel System—two applicators in one. Allows more accurate and easier dosing of small and large animals with one system.

Shower Nozzle—“Anti-Splash” system that avoids wastage of product and under-dosing.

Angled Nozzle—makes it easier to use in chutes and in dosing large animals.

Soft tubing—stays flexible and does not become brittle in cold weather, does not kink or catch on objects while in use. **Drench Attachment Available.**

Product Code:

PPOG—70ml Pour On Gun

PRIMA MARC

The Prima Marc Vaccinator injects and marks the animal at the same time, verifying the animals treated and what they have been treated with. Reduces uncertainty, wasted product and lost production. The Can holder rotates 180° to make the process easier.

Features:

Available in 2 ml & 6 ml Maximum dose

Steel Needle Nib—adds strength to a critical stress point

Universal Needle Cap—fits all luer spec needles, needle changing is fast and simple.

Hook—easy to hang up and keeps treatment areas tidy

Ergonomic handle—more comfortable during use

Large Finger Grips on Dose Adjuster—easier to change doses

Clear Barrels—easier to see product being administered

Rotating Can Holder—Position of spray can be adjusted 180°

Product Code:

PMVAC6—6 ml Prima Marc Vaccinator

Prima Can Base Clip

Suits Prima Marc Paint Can. One clip is supplied with each new Prima Mac Vaccinator. Clips can be reloaded with new paint cartridges.

Product Code: PCBC

ACCESSORIES

Quick Lock Needle Nut

Allows for high-speed connection and disconnection of needles. Works well with Flexitube to allow solid connection with all Vaccinators including the Bottle Mount Vaccinator

Product Code: P QLNN

Flexitube

Flexible extension, which can be connected to any vaccinator or injector. Allows safer injection, reducing breakages of needles.

Product Code: Flexitube

Metal Drench Attachment

Includes O-ring. Fits onto Prima Tech Vaccinators and Prima Tech Bottle Mount Vaccinators. For use in oral drenching

Product Code: PDRENCH

12ml Injector Metal Drench Attachment

Includes O-ring. Fits onto 12.5ml Injector

Product Code: PDRENCH 12ml

Metal Drench Attachment for Pour-On-Gun

Fits on to the 70ml Pour on Gun for Drenching
Select Dosage

Product Code : Drench Nozzle 70ml

BMV Fast Fit Bottle Mount

World Patented fast fit applicator. Included with BMV fast fit applicators. Allows easy loading of all vaccines and other products in bottles of 100ml or less or larger for 250ml bottles

Product Code: P10019

125ml (20mm) Fast Fit

250ml (30mm) Fast Fit

BMV Conventional Bottle Mount

For use with the Prima Bottle Mount Vaccinator. This attachment is commonly used with blow moulded vaccine packs up to 250ml in size. Various sizes available to suit a range of bottle caps.

Product Code: P100018 - 20mm cap
PCON 30 - 30mm cap

PCON 33 - 33mm cap

REPLACEMENT BARREL KITS FOR PRIMA TECH VACCINATORS

Replacement BMV Barrel Kit

Available in 0.5ml, 2ml and 6ml sizes

Kits include barrel with collar, needle nut, o-ring, conventional bottle attachment and spike cover

Product Code:

P100017-0.5ml BMV Barrel Kit

P100007 - 2ml BMV Barrel Kit

Product Code:
BAA101 - Bottle Protector pkt

Bottle collar to suit 30mm Cap

Kit includes Bottle Collar and 1 Stericap.

Product Code:
BAA202 - Bottle Protector pkt

F10 Super Concentrate Disinfectant

Available in 200ml, 1 litre, 5 litre & 25 litre

Hydrogen Sulphate Tester

This device is also known as a Hydrometer. It is used to test the concentration of Zinc Sulphate in sheep footbaths. Ideally the level of Zinc Sulphate should be close to 10%. If it's higher than this you are wasting money by having the solution too concentrated. If it's lower, it's too low to do the job of treating the sheeps feet correctly

NEEDLES

Stainless Steel Reusable Needles

Available in Packs of 12 Needles

Sizes Available:

Needles 16g x 1/2"	Needles 18g x 1/4"	Needles 20g x 1/2"

Water Medication Equipment

Gator Water Mediator:

- Water Powered no electric power required.
- Heavy Duty Construction.
- Chemical by-pass keeping chemicals out of main water motor
- Set ratio of 1:100 for easy calculations.
- Easy Inexpensive maintenance, 90% of maintenance can be completed on the farm.

Select Doser:

- Using a computer programmed peristaltic pump, the Select Doser compresses a soft tube to move solutions into the Watering systems.
- Accurately administers the proper water/product ratio all the time.
- Option to customize and add additional ratios to meet your needs.

Think Livestock also service & stock a range of spare parts for the Gator Water Mediator & Select Doser.

Teflon-coated magnetic follower spins and stirs stock solution

Electrical Agitator

Spinstir:

- Efficient and easy to use stirrer for use with all types of powdered product held in a stock solution.
- The Spinstir stock solution stirrer applies sufficient agitation to keep particles in suspension right through the dosing period.
- No product residue remains at the end of the dosing period.
