Think Livestock are specialists in medication delivery systems for livestock. We are Number 1 in quality products, expert advice and first-class customer service

Think Livestock are suppliers of vaccination and water medication equipment for livestock including; sheep, goats, pigs, poultry, horses, alpacas, beef and dairy cattle. We offer a number of unique products such as the award winning Bottle Mount Vaccinator and the revolutionary Select Doser.

We also now carry a large range of animal health and general rural merchandise at our new store in Huntly. If you're travelling through the Bendigo area, make sure to drop in and see us.

The Think Livestock Guarantee

- We guarantee that our products will work FIRST time or we'll replace them, no questions asked.
- We guarantee that any repair completed by us will result in 100% satisfaction or we'll re-service it for FREE

To order any Think Livestock product Phone, Fax or order online at
www.thinklivestock.com

Some products are available in selected rural stores (Elders, CRT, AIRR, NRI, Landmark, etc.) Contact us to find a local stockist.

HSW Eco-Matic Vaccinator

- Automatic, multi-dose vaccinator.
- High-grade plastic construction.
- Lure-lock needle connection. Easy to change needles.
- Accurate dosage adjustment.
- Available in 1ml, 2mL and 5mL adjustable doses
- Piston O-rings available.

Product Codes: HSW Ecomatic (size) Tube

HSW Eco-Matic Bottle Mount Vaccinator

- Automatic, multi-dose bottle mount vaccinator.
- High-grade plastic construction.
- Lure-lock needle connection. Easy to change needles.
- Accurate dosage adjustment.
- Available in 0.3ml, 0.5ml, 1ml, 2mL and 5mL adjustable doses
- Piston O-rings available.

Product Codes: HSW Ecomatic (size) Bottle Mount

HSW Eco-Matic with uni adaptor

- High-quality plastic construction.
- Lure lock needle connection.
- Accurate, easy dose adjustment.
- Includes 20mm, 30mm & 33mm Bottle caps.
- Available in 2ml and 5ml adjustable doses

Product Codes: HSW Ecomatic unimatic

HSW Baycox 2ml 1 Litre Drench Gun

CODE: HSW Ecomatic 2mL Drencher

This is a rugged, durable drencher, reliable and comfortable to use. Stronger critical components make it a very cost effective drencher to own. Can be used with Baycox 1 litre

Features of the Drencher:

- Available in 2ml adjustable dose model.
- Clear Barrels – easier to see product being administered.
- Ergonomic handle
- More comfortable during use than most alternatives.
- Large finger grips on dose adjuster
- Easier to change doses than many other applicator.
- Sensibly positioned inlet in back handle
- Delivery tube feeds up through base of handle.
- Much less likely to get ripped off the gun by flighty livestock.

HSW Eco-Matic Twin vaccinator

- High-quality plastic construction.
- Any combination of barrel sizes
- Adjustable needle distance.
- Full kit, with all available adaptors included.

Product Codes: HSW Eco-matic twin 0.5ml/0.5ml, HSW Eco-matic twin 1ml/1ml, HSW Eco-matic twin 2ml/2ml, HSW Eco-matic twin 1ml/2ml, HSW Eco-matic twin 0.5/2ml

Masterline Drencher for Baycox

- Critical components made from sturdy stainless steel and as such can be boiled for cleaning.
- Valves can easily be accessed for cleaning or replacement.
- Purpose built for Baycox 200mL Screw-top bottles.
- Stainless steel drench nozzle. Adjustable 20ml dose
- Maintenance kit included

Product Code: TU-Baycox Drench

Masterline F-grip Vaccinator (Transformer)

- Critical components made from sturdy stainless steel and as such can be boiled for cleaning.
- Valves can easily be accessed for cleaning or replacement.
- Standard lure needle connection.
- Supplied with everything needed for use as a tube feed and a bottle mount. Adjustable 2ml dose.
- Maintenance kit included.

Product Code: TU-Transformer 2mL

HSW Ferro-Matic

- High-quality vaccinator with long service life
- Metal construction with glass barrel.
- Lure-lock needle connection. Easy to change needles.
- Accurate dosage adjustment.
- Available in 3ml adjustable doses.
- Maintenance kits available.

Product Codes: HSW Ferromatic

HSW Vet-Matic Vaccinator

- High-quality vaccinator with long service life.
- Metal construction with glass inner barrel.
- Sturdy piston rod.
- Accurate, easy dose adjustment.
- Available in 5mL and 10mL variations. Spare parts kits available

Product Codes: HSW Vet Matic 5mL, HSW Vet Matic 10mL.

HSW Multi-Matic Injector

- Pressure-cast aluminium construction. Strong and light weight.
- Dial-a-dose selector with 0.5ml (25ml) & 1mL(50ml) increments.
- Break-proof plastic barrel. Practically indestructible.
- Available in 25ml & 50mL model. Spare O-rings & barrels available.

Product Codes: HSW Multi-Matic 25ml & HSW Multi Matic 50mL

Masterline F-grip Vaccinator (Tube feed)

- Critical components made from sturdy stainless steel and as such can be boiled for cleaning.
- Valves can easily be accessed for cleaning or replacement.
- Standard lure needle connection.
- Maintenance kit included.

HSW Drench / Injector

- High-quality drench/ injector with long service life.
- Pressure cast aluminium construction
- Includes needle lure lock & drench nozzle.
- Accurate dosage adjustment.
- Available in 10ml adjustable doses
- Service kits available

Product Codes: HSW Drench Injector 10ml

HSW Drench Gun

- High-quality drench/ injector with long service life.
- Pressure cast aluminium construction
- Accurate dosage adjustment.
- Available in 23ml adjustable doses
- Minor & major parts kits available.

Product Codes: HSW Drench 23ml

Flexitube

- Flexible extension allows the user to vaccinate in space restricted areas such as cattle crushes.
- Fits onto any vaccinator with a needle lure lock.
- Reduces needle breakages.

Product Code: Flexitube

HSW Eco-Matic 12.5ml Injector

- High-quality plastic construction
- Lure-lock needle connection.
- Accurate, easy dose adjustment.
- Metal Drench nozzle can be added
- Available 12.5ml adjustable dose.

Product Codes: HSW Ecomatic injector

Stericut Tail Docker

Product Code: Stericut tail docker

The Stericut is a portable gas heated instrument. The blade on the tool is heated so that as it cuts, the wound is cauterised preventing bleeding and reducing the risk of infection. The anvil on the handle allows for the blade to make a clean cut. Hi/Lo adjustments allow the user to control how hot the blade is.

- Portable,
- Gas Heated
- Cauterises wound as it cuts to prevent infection
- Gas cylinders, knives and handle-springs available

Stericut knife

Product Code: Stericut Knife for Stericut

Stericut knife guide

Product Code: Stericut Spare Knife Guide

Stericut handle spring

Product Code: Stericut Handle Spring

Stericut gas cylinder

Product Code: Stericut Gas Cylinder

Stainless steel reusable needles

- Packs of twelve needles.

Disposable Syringes

- Lure slip syringes available in 1mL, 3mL, 5mL, 10mL, 20mL, 30mL and 50mL volumes.
- Lure lock syringes available in 20mL volume.
- Catheter tip syringes available in 60mL volume. Box of 25
- Boxes of 100 or sold separately.

Product Codes: DSL001MLS (1mL), DSL003MLS (3mL), DSL005MLS (5mL), DSL010MLS (10mL), DSL020MLS (20mL), DSL030MLS (30mL), DSL050MLS (50mL), DSL060MLC (60mL Catheter Tip), Syringe Lure Lock (10mL Lure Lock).

Masterline Reusable Syringes

- Volume markings engraved on both barrel and piston.
- Locking nut on piston can be used to ensure correct dosing.
- Lure lock needle connection.
- Available in four sizes: 10mL, 20mL, 30mL and 50mL.
- Maintenance kit included. Drench Nozzle can be attached.

Product Code: TU-Flex-Master 10mL, TU-Flex-Master 20mL, TU-Flex-Master 30mL, TU-Flex-Master 50mL

Drench nozzle for Masterline reusable syringes

- Stainless steel drench nozzle.
- Fits onto all sizes of Masterline reusable syringes.

Product Code: TU-Drench-Nozzle Flex

CoolGro XP Spray System

The COOLGRO xp is a simple, cost-effective control device for Spray and Drip cooling systems in pig farms:

Simple: The CoolGro consists of a control unit (with 3 dials), 1-2 Solenoid valves, and a temperature probe.

Versatile: The unit can be used to control both spray cooling

BioVX Disinfectant 1kg & 5kg

- Effective against bacteria, moulds, yeasts and viruses
- Bio-degradable.
- Superior dilution rate giving increased economy.

Effective against African Swine Fever, even under outbreak conditions

Product Code: BioVX

F10 Super Concentrate Disinfectant

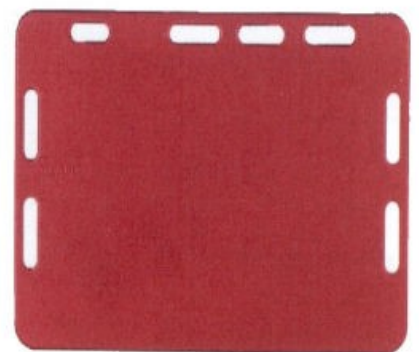

- Highly effective against a broad range of pathogens.
- Available in four sizes: 200mL, 1L, 5L and 25L.

Sorting Panels

- Handles on three sides.
- Strong plastic.
- Available in Large (48" x 36").

Product Code: SORP - 40 (Large),

Rattle Paddles

Fiberglass shaft with golf-style handle for a comfortable grip

- Vinyl covering for protection and easy cleaning
- Lightweight and durable head containing BBs for noise
- Length with head: 36"

Product Code: Rattle Paddles

HSW Vac-Pac Bottle Holders

- Insulated to keep vaccine at a constant temperature.
- Made of Neoprene.
- Available in On– Arm (250ml & 500ml)
- Hip (100ml, 250ml & 500ml)
- Fits most sizes of collapsible vaccine pack.

Product Codes: HSW Vac Pack Arm 500ml, HSW Vac Pack Arm 250ml,
Product Codes:: HSW Vac Pack Hip 500ml, HSW Vac Pack Hip 250ml,
HSW Vac Pack Hip 100ml

Ezepak Vaccine Holder

- Insulated to keep vaccine at a constant temperature.
- Fits onto bicep.
- Fits most sizes of collapsible vaccine pack.

Product Code: Eze-pak Vacciholster Cool-pack

Ezepak Gun Holster

- Stores gun between applications, keeping needle safely away from operator.
- Fits several types of gun including Masterline V-grip Vaccinators and Masterline Drench Guns.

Product Code: Ezepak Belt/Gun Holster

Ezepak Drench System

- Distributes weight of drench container more evenly.
- Includes drench gun holster.
- Suits 2.5L and 5L drench containers with top or bottom draw-off cap.

Product Code: Ezepak Drench System

Back-packs (Drench Containers)

- Hard plastic construction.
- Vented cap prevents vacuum from forming.
- Available in three sizes: 1L, 2.5L and 5L.

Product Codes: HSW Back Pack 2.5 Litre, HSW Back Pack 5 Litre.

Gator Water Medicator

- Water powered - No need for electricity, runs off water pressure.
- Set ratio of 1:100 or 1:50 - Easy to calculate pre-dilution ratios.
- Chemical bypass - chemicals added after the unit to minimize unnecessary wear and tear.
- All replacement parts available from Think Livestock.
- Professional repairs available

Select Doser

- Highly accurate - 95%, superior to other variable ratio pumps which often wear out quickly.
- Long lasting with minimal maintenance. Replacing the pump tube effectively renews the pump.
- Several variants available - ask our staff to learn more.
- Replacement parts available from Think Livestock
- Professional repairs available

Product Codes: On request

Select 380 Doser

- Can pump up to 5 litres per hour of additive into the water line.
- Can dose into pressures of up to 70 psi (or 5 bar), which are common with long water lines typical to sheep and cattle farms.
- Works with standard water meters.
- Highly accurate - 95%, superior to other variable ratio pumps, which often wear out quickly.

Product Code: 380 Doser

G5 Doser

- Can pump up to 5 litres per hour of additive into the water line.
- Can dose into pressures of up to 100 psi (or 7 bar).
- Highly accurate - 95%, superior to other variable ratio pumps, which often wear out quickly.

Product Code: 360CA-1

Spinstir

- For keeping insoluble additives suspended in stock solutions.
- Works well with any powdered additives.
- Available in 100L

Product Codes: 11CA00 (Spinstir 10 - 240 for up to 100L)

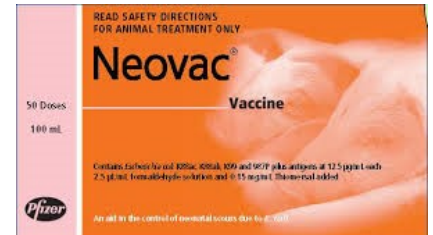

Circoflex 250ml

- Ingelvac CircoFLEX[®] was the first in the FLEX Family of swine vaccines and one of the most revolutionary PCV2 vaccines on the market. As a result, it has built a reputation for providing safe, effective control of porcine circovirus associated disease (PCVAD) in pigs three weeks of age or older from a single dose of 1ml

Neovac 100ml

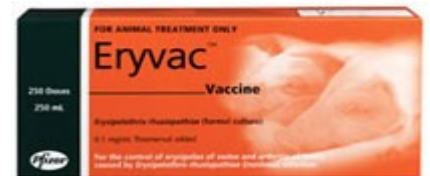

- Neovac[®] vaccine is used as an aid in the control of neonatal scours occurring in the first 7 to 10 days in new born piglets due to *E. coli* in pigs.
- Dose: 2mL intramuscularly at the base of and immediately behind the ear.

EryVac 500ml

Sheep: Eryvac[®] is registered for the control of Erysipelas polyarthrititis in lambs and sheep. Erysipelas infection may result in damage to the joints of sheep leading to arthritis. Dose 1ml.

Pigs: Eryvac[®] is used to control Erysipelas in pigs. Dose 1ml.

M + Pac 500ml

- For the active immunisation of pigs in order to reduce frequency and severity of lung lesions caused by *Mycoplasma hyopneumoniae*

PLEvac 500ml

An inactivated vaccine for sows and gilts to provide protection against Erysipelas and *Leptospira Pomona* infections and as an aid in the control of parvovirus infection in pigs.

EcoVac 500ml & 250ml

Polyvalent, killed whole cell vaccine containing E.coli serotypes including fimbrial antigens, K88, K99 and 987P involved in neonatal scours. • 2 mL dose

EcoVac LE 500ml & 250ml

Inactivated, adjuvanted vaccine comprised of E.coli, Erysipelothrix rhusiopathiae and Leptospira interrogans serovar pomona • 4 mL dose

Porcine Parvac 100ml

Porcine Parvac[®] is an inactivated parvovirus vaccine used to prevent parvovirus disease in pigs.

Newborn Boost

Nutritional Supplement For Newborn Lambs & Piglets

- Immediately available energy in order to help the animal to access the maternal colostrum.
- Beneficial bacteria colonization of the gut
- Improving the physical condition, suckling ability, and resistance to stress

Use in cases of:

- Parturition problems
- Weak, small and underweight animals
- Young or old mother
- Poor maternal instinct

Bayer Baycox 1 Litre

Baycox Coccidiocide is an easy-to-use, single-dose, oral treatment for the control of coccidiosis in piglets and young cattle.

Product Code: Bayer Baycox

Coxi-Stop 50 1 litre

COXI-STOP™ 50 is for the control of coccidiosis in neonatal piglets caused by *Isospora suis*, and in cattle up to 9 months of age caused by *Eimeria bovis* or *Eimeria zuernii*.

Product Code: Coxi Stop 50
